ATTACHMENT #1: Proposed Fiscal Responsibility By Law Changes

PROPOSED AMENDMENT TO BY-LAWS IN FURTHERANCE OF FISCAL RESPONSIBILITY

Existing Article VI of Bylaws

ARTICLE VI

Fiscal Year

Section 1. End of. The fiscal year of the district shall end on the thirtieth day of April in each year.

(There are no other Sections to Article VI)

Proposal is to amend Article VI as Follows:

ARTICLE VI

Financial Matters

Section 1: The fiscal year of the district shall end on the thirtieth day of April in each year.

Purpose: Retitle Article VI to encompass financial matters. The fiscal year will remain April 30th.

Section 2: **Capital Reserve Fund** – The district shall establish a Capital Reserve Fund dedicated to the maintenance and replacement of equipment, software, and capital assets. Each fiscal year, an amount equal to five percent (5%) of the previous year's tax levy will be allocated to the Capitol Reserve Fund. At the discretion of the District Council, an amount greater than five percent (5%) of the prior year's tax levy may be allocated to the Capital Reserve Fund from the operating surpluses of previous years.

The Capital Reserve Fund shall be considered minimally funded at one hundred thousand dollars (\$100,000) and fully funded at five hundred thousand dollars (\$500,000). If the Capital Reserve Fund falls below the minimal funding amount, the budget allocation for the fund in the following year must be at least ten percent (10%) of the previous year's tax levy. Once the Capital Reserve Fund reaches the maximum funding amount, the annual funding allocation of five percent (5%) is suspended until the Capital Reserve Fund falls below this maximum.

Purpose: This fiscal responsibility proposal is to have funds available for capital improvements as needed. Presently the surplus is about \$128,000, so that is why the minimum is at \$100,000.

Section 3: Storm Infrastructure Repair Fund: A restricted fund with a minimum balance of fifty thousand dollars (\$60,000) shall be established for infrastructure repair caused by extreme weather events. The District Council shall vote on using this fund to pay for weather-related infrastructure costs.

When the fund balance at the end of a fiscal year is below the minimum amount, a budget allocation shall be made for the subsequent year to bring it up to the minimum amount.

Section 4: Operating Reserve Surplus - The district shall establish an Operating Reserve Surplus Account, “a rainy day” fund, to address extraordinary cash flow needs for district operations that arise from lower-than-expected revenues or unanticipated increases in necessary expenditures. The use of this fund to pay for any expenditure line-item requires the approval of the majority of the District Council.

Purpose: This fiscal responsibility proposal is to have funds available for unanticipated but necessary expenses.

Section 5: Extraordinary Capital Purchases – The District may raise money through debt or liabilities, including lease agreements, to cover extraordinary capital expenditures for which the District Council deems the Capital Reserve Fund either insufficient or inappropriate to pay. Debt obligations must first be passed by the majority of the District Council. Debt obligations exceeding seventy-five thousand (\$75,000) in any fiscal year must additionally be approved by at least two-thirds of the qualified voters through a referendum at the Annual Meeting or a special meeting.

Purpose: This proposal is a check and balance provision before incurring large debt by giving the voters a voice about the expense.

Section 6: Grants - All grants, including those for the benefit of the Bonnet Shores Land Trust, must receive approval from the District Council before authorization. Anticipated grant revenues and corresponding expenditure must be included in the operating budget for the upcoming fiscal year. Grants exceeding _____ amount will be processed through a budget amendment and approved by at least two-thirds (2/3) of the qualified voters through a referendum at an Annual Meeting or a special meeting.

Purpose: This proposal is a check and balance provision before incurring large debt by giving the voters a voice about the expense.

Section 7:

Taxpayers who reside in the District shall be entitled to certain property tax exemptions from the District allowed by the Town of Narragansett provided that they have applied for and received these exemptions from the Town. The District shall use the The available exemptions include:

-

Taxpayers in the District who have not applied for and received these exemptions from the Town of Narragansett are not eligible to receive them from the District. The exemptions cannot be applied to vacant, rental, or leased properties. The District reserves the right to challenge the Town’s granting of the exemptions based on information known to the District and deny them to the District taxpayer upon a vote by the District Council

Purpose: This proposal is to allow taxpayers who make their permanent residence and home in the district to be eligible for the same tax exemptions of the Town of Narragansett.

Section 8: Levy Cap -The district shall restrict any increase in its property tax levy (Levy Cap) to a maximum of ten percent (10%) over the previous year’s amount that is budgeted to be raised by taxation, or by the amount of annual inflation (per the CPI index, All Urban, Consumers, New England).

The district may increase the amount by taxation by a percentage greater than 10 percent (10%) or the annual inflation rate, if the increase is approved through a referendum during the district’s Annual Meeting.

The mill rate shall then be calculated using assessed values to determine the budgeted tax collection.

Purpose: This change is a prudent measure to provide for a cap on tax increases consistent with the Levy Cap for cities and towns in the State of Rhode Island. The mill rate in the original Charter is outdated, based upon the current value of the properties in the district, potentially allowing for taxes of about \$7,500,000 (million). This is an effort to ensure greater fiscal responsibility to the community. Cities and Towns have a 4% Levy Cap by state law. This bylaw does not

change the Charter, but reflects the district realization that the archaic mill rate is not relevant today, and is a fiscal responsibility measure to align taxes with current municipal tax trends. To be discussed: Levy Cap for the district.

Section 9: Extraordinary Costs – Those costs associated with a declared emergency may be excluded from the district Levy Cap. “Extraordinary costs” are expenses incurred for immediate response, preparation, recovery, and restoration of district services following extreme weather events or catastrophic occurrences. This exception applies only to those costs that exceed what would typically be incurred under normal, non-emergency conditions.

Approval of these extraordinary charges require support by at least two-thirds (2/3) of the District Council. Funds allocated for these costs shall be treated as a one-time request subject to adjustment based on any federal or state reimbursements.

Purpose: This addition is to allow for unforeseen emergency expenses that may occur above the Levy Cap.
